location: Cairo, Egypt

## SUMMARY

I am a highly motivated web developer with a strong foundation in web design and development. My academic background in web developing, combined with practical experience, equips me with the skills to create efficient, user-friendly, and visually appealing websites. I am eager to contribute to innovative web projects and continuously expand my skill set in the ever-evolving field of technology.

B1

# PROJECTS

## Pharmacy inventory Management

Developed Pharmacy inventory Management using PHP, HTML, CSS, bootstrap and MYSQL during my studies. This project achieved [positive outcome, e.g., improved user experience, streamlined a process].

## E-Commerce

Me and my team created webpage to buy products online using PHP, HTML, CSS and MYSQL

## Entertainment management

I created website where you can manage the movies or series you watched, or you liked the website have features like search engine and filter the date between 2 specific values and filter data of specific movie or series type like drama, action etc.

I used for backend PHP LARAVEL to create API and in frontend I used React JS, and I use tailwind CSS for styling for database I use SQLite

## Portfolio Website

I created website to display everything about me to be my portfolio of myself I used react JS and tailwind CSS
